Resident of Indian Territory Appeals in an Open Letter.

PRESIDENT AND CONGRESS

Urged to Early Action in Behalf of Civilization.

Dumean, Indian Territory, November 30, 1898. To His Executency, President McKinley and the Honorable the Congress of the United States, this Communication Is Respectfully Addressed;

Although the government at Washington has been for some time, and is yet chiefly concerned with the war with Spain, and its weighty issues, it is to be hoped that the president and congress, to accemble a the national capital next week, will find a little time to devote to a speedy and proper adjustment of the anemalous conof affairs in the Indian and Oklahoma territories. The attention of the goverament is especially invited to look at the condition of the Wichita, Klowa, Comanche and Apache Indian reservations and if possible open them to homesten settlement at an early day.

By the act of congress of May 2, 1889

all the territory west of the Chicknessw nation, and bounded by the state of Texas on the much and west, is in the bounds of Oklahoma, and a part of section I of said act reads thus: "Any other lands within the Indian Territory not embraced within these boundaries of Oklahoma as defined; shall hereafter become a part of se territory of Oklahoma whenever th Indian pation, or tribe, owning such lands shall signify to the president of the United States, in legal manner, its assent that such lattice shall so become a part of said erritory of Oklahoma, and the presiden shall increupen make proclamation to tha

Now the said tribes, the Wichitas, Kiowas, Comanches and Apaches, becapying these reservations, have signified their as ent, in legal manner, by treaty agreement with the government of the United States and a bill ratifying said agreement with said titles of Indians has passed the lower trouger of congress, and is now pending it ha senate, by the terms of which bill upon Its becoming law, and the proclams tion of the provident beard, those reserve tions would become a part of the publi domain and subject to settlement under the homestead laws of the United States offer the Indians have selected homestrad bomblens, in accordance with the terms of the law.

The Wichila reservation, lying between be South Canadian river and the Washita river on the swith, contains 743,610 acres. The Kidwa, Comuncile and Apache reservalious, lying between the Washita on the north, Red giver on the routh, and Greer county on the west, contains 4.2%. The great Rock Island railroad runs right along on the east border at these reservations all the way from the Canadian to Red river, with eleven pros percus depot tewns, so distributed as t trade and commerce of this region

It is already known to the world that the country embraced within the above area is the richest and most beautiful, as well as the most healthy, country now uno vilpled by the white man in the United States, notwinked anding the cowman and ha opening to settlement, that they might commune to monopolize its rich mains for graning purposes, have persistently repessented to congress that these lands were only fit for pasturage. But the common when this wast acreage of wonderfully for e sell must be thrown open to the man with the plow and the hoe. The large ofts that have so long roomed over and in occasional visit from the red man when be wanted beef, are now disappearing, truth; the only one heretofore in the way be more no longer a potent factor in op-

timately erect both the Indian and Okla oma territories into one state, then why t simply extend the territorial goverment of Oklahoma over the five civilized Thes now, and curtail to a minimum the vast expenditure of money by the federal covernment to sustain the disgraceful contion of affairs in the Indian territory is nonsense to argue the lack of constimional power to erect a state governmen ver these tribes, without their consen-Sovereignty, for the protection of the rights and immunities created by or deadent upon the constitution of the Unit d States, rests with the United States, These Indian reservations (or so-called sations) are the creations of laws and reaties, enacted under and by virtue of constitution, and the sovereign power ver them remains with the president and ongress, and this sovereign power exends to and embraces every foot of sol

and every living soul within the jurisdiclion of the United States. It seems that the confused, conflicting ind bungling legislation of the last sesion of congress, called the Curtis bill, is come up for revision again and whe t does, congress ought simply to repeal all except the allotment and citizen ommission to make their final report no ater than the first day of December, 1869. and amend the law, allowing each member of the respective tribes to take a homeead allotment of land, and provide for he sale of the remainder to white set Hers for a fair price, under the homestead laws of the United States, placing the money arising from said sales to the credi of the respective tribes in the national treasury, after deducting the expense of said allotment and sales. By this method, which, in my opinion, should now become the settled policy of the government, the sperior Anglo-Saxon man would settle romiscuously among and contiguous to is red brother. And under the firm and umane administration of the laws, they would gradually fraternize and ablde happlly regether. This policy should be applied to the Wighlia, Klowa, Comanche

In the Crooked Creek Country -- Whence the Tribulations.

Guthrie, O. T., Dec. 2.-The Jefferson Rustler has the following account: One of the most disgraceful church fights in the history of Crooked Creek ountry took place last Sunday week at

the Hawley school-house, between acveral

members of the Baptist church. Charges were preferred against Dr. Bridgeman and he was notified the same day the trial was to be held, which is ontrary to all rules. It had all been arranged to fire him from the church withor giving him time to prepare for trial. The doctor decided that he wouldn't go o church that day, but changed his mine as he is from Missourt. He went, as h wanted them to show him how they fired embers from the church.

Dr. Bridgeman asked for thirty days time to prepare for trial, but was refused A vote was taken and carried. The ai was now getting blue, and the devil was getting in his work in good shape

Dr. Bridgeman then preferred charge against Det Goble, one of the deacons desecrating the Sabbath, and against Rev. Long, for acts unbecoming a minister. and as the minister's name was men ioned several women and men jumped their feet and made for the doctor. De Goble and Mr. Harlow commenced bea ing him, while one woman was clinging his whiskers, and before they could b separated the doctor was boat up in orrible manner, and he still carries two black eyes. Dr. Bridgeman's trial is set for Decem

to Challenge Offenders. Havana, Dec. 2.-The executive commit ee of the Cuban assambly agreed at its last session to make it compulsory upon by Spanish, American or other officers, to challenge the person so insuting, to fight "to maintain the dignity of the called Cuban officers who, without having ever put their courage to a test, having enlisted after the armistice, are swagprison, being the full limit of the law, gering about with Cuban uniforms, ening to offend Spanish officers." It is learned on good authority that the Topans have secretly acquired quite a

formidable armament, the ulterior objecwhich is not known. It is added that they have purchased over 5,000 rifles within the last ten days. The fact is causing considerable speculation here The United States transport Florida arived here with quartermasters supplies 164 mules and horses and 34 stablemen.
